Sobuj Ahmed

Front-End Developer

📍 Mirpur 1, Dhaka | 📞 01631058947 | @ sobujahmed124@gmail.com | 🔗 https://sobuj-55.vercel.app/

Summary

Motivated second-year student pursuing CSE with a keen interest in front-end development. While my formal education has provided me with a strong academic foundation, my passion for web development has driven me to independently acquire skills in HTML, CSS, and JavaScript.

I have cultivated a proficiency in creating visually appealing and user-friendly websites through self-directed learning and hands-on projects. Eager to bridge the gap between theory and practical application, I am seeking opportunities to contribute my self-taught skills to dynamic development projects.

Education

Institute of Science and Technology

November 12/2021 - Present

Computer Science and Engineering

🔗 https://ist.edu.bd/

Projects

Art & Craft

A summer camp web application showcasing different classes and instructors. This application was created using ReactJS, ContextAPI, Firebase, TailwindCSS, React Router. For server NodeJs, Express and MongoDB.

Oct 01 - Dec 15 2023
